NEREO

5-STAGE REVERSE OSMOSIS

Reverse osmosis for production of pure water, with low salt content.
System manufactured using high quality and robust materials.
The RO Series NEREO have an excellent price/quality relationship with the best combination of simplicity and functionality.

NEREO DOMESTIC REVERSE OSMOSIS

5-Stage reverse osmosis for production of pure water, with low salt content.
Made with high quality materials, reverse osmosis NEREO offers an excellent combination of quality with simplicity and functionality.
Stages: 5 µm filtration, GAC carbon, carbon block (booster pump option) membrane and post-filter.
• 100% coconut shell active carbon
• 50 GPD membrane Certified NSF / ANSI Standard 058
• Nanoparticles antibacterial postfilter
• Includes Margarita faucet
• Includes pressure gauge
• High water flow with 3/8” tubing
• Antibacterial tubing certified by SGS
• 5 in 1 multi wrench
• 4 gallons water storage tank
• Installation Kit
• Working pressure:
  - System with pump: 1 to 3 Bar
  - System without pump: 2,5 to 4,2 Bar
• Inlet temperature: 5 - 35ºC
• Max. TDS input: 1,000 ppm
• System with pump:
  - Electric-voltage: 220 – 24VDC
  - Booster pump LF-30L

High water flow
3/8” tubing.

High capacity storage tank
4 gallons water tank.

Antibacterial tubing
Prevents the proliferation of bacteria. Certified by SGS.

Quality / Price
High quality economical equipment to obtain a water with low content in salts.

European certificate of conformity
